The Family Support Centre of Humboldt-Universität zu Berlin

Strategy for supporting families

Humboldt-Universität zu Berlin sees family-friendliness as a central part of its culture. The Family Support Centre is dedicated to improving the university’s infrastructure for families and to raising awareness on campus of the challenges students face while balancing academic, professional and family commitments. The Family Support Centre manages and coordinates “audit familiengerechte hochschule” projects and maintains an ongoing dialogue with the Commission for a Family-Friendly University, the Gender Equality Office, the staff councils and the RefRat student committee. Furthermore, the Family Support Centre is a member of the “Familie in Hochschule und Wissenschaft Berlin” and “Erfolgsfaktor Familie” networks.
